RE: Academic Progress - Excelling Outcome

Tēnā koe Sahmaya,

Massey University recently completed the publication of grades at the conclusion of Semester Two, 2024. Your results from that period show that you passed all your courses and you achieved a GPA of at least 7.0. At Massey, we define these accomplishments as “Excelling” across the semester. I am writing to offer to you my congratulations and to say well done!

Massey recognises your efforts and acknowledges your achievements, and we wish to formally congratulate you on your outstanding semester of academic achievement. I also want you to know that these results place you among a small group of students whose performance is well above average.

In addition to this letter of formal acknowledgement and congratulations, I am pleased to confirm that your achievement will also show on your Academic Transcript as a permanent record.

Succeeding in your courses and maintaining a high GPA is something you should take great pride in. On behalf of Massey University, I offer you my sincerest congratulations on your achievements and I hope that your future holds similar success.

With every best wish for your studies.

Nāku noa, nā

Professor Giselle Byrnes
Provost
Massey University
